PROFESSIONAL ACTIVITIES

I am member of the Burst Advisory Board of the LIGO-Virgo Collaboration, which is a forum of delegated LVC members playing active roles in LVC's burst search activities. The board discusses long-term plans and strategies for the Burst Working Group through telecons held on an average of 1/month basis.

I am a referee for the following international scientific journals: *Physical Review D*, *Physical Review Letters*.

I was one of three members of the local organizing committee for the [LSC-Virgo Meeting held in Budapest](#), Hungary between September 19-24, 2009.

I was the co-founder of the [Eötvös Gravity Research Group \(EGRG\)](#) in 2007, which is the local group of the LIGO Scientific Collaboration in Hungary. I led the data analysis efforts of the group between 2007-2011 and I have been leading it again since 2013.
